

(01/31/2023)

Accomplished:

- Sent a follow up email to client addressing the following
  - Asked for access to the data set.
  - Reminded them to fill out the When2Meet to schedule weekly meeting.

Next Steps:

- Post a Github issue at the end of the week for our weekly hour log.
  - Aim to have 7 hours a week including all meetings.
- Ask professor Park about setting up the remote desktop.

General Notes:

- For the statement of work, use the original client description document to outline our main goals, but also include a section for stretch goals and going beyond.
- General Approach:
  - 1. Understand data formatting.
  - 2. Semi-supervised.
    - A. Finding representative examples not dependent on data.
    - B. Labeling some data points
  - 3. Building models.
